-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 06 August 2008.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

1. Claims 1-18 are presented for examination.
2. Claims 1-18 are amended.
3. The objection to the Specification has been withdrawn based on Applicant's amendment.

Allowable Subject Matter

4. Claims 1-18 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
5. The following is a statement of reasons for the indication of allowable subject matter:

Referring to claim 1, the prior art of record fails to teach and/or fairly suggest the limitation of a branch to the branch target address occurring when the fetch address is the branch occurring address after a x-th instruction from the branch setting instruction, the branch information setting circuit storing the branch occurring address in a branch occurring address storage register and the branch target address in a branch target address storage register, when the branch setting instruction is decoded, in combination with other recited limitations.

Referring to claim 2, the prior art of record fails to teach and/or fairly suggest the limitation of a branch to the branch target address occurring when the fetch address is the branch occurring address after a x-th instruction from the branch setting instruction, the branch information setting circuit storing the branch occurring address in a branch occurring address storage register and the branch target address in a branch

target address storage register, when the branch setting instruction is decoded, in combination with other recited limitations.

Claim Rejections - 35 USC § 112

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a. Claims 1 and 2 are directed towards an "x-th instruction." An "x-th instruction" can have multiple meanings. The Examiner recommends including --x being a non-zero positive integer-- in order to clarify "x." The dependent claims inherit the same deficiency and therefore, are rejected for the same reason.

b. Claims 13-18 are directed towards "Electronic equipment comprising." Claims 1 and 2 are directed towards "A data processing device." It is unclear as to what is included or excluded in claims 13-18 since they are directed towards a different device. Furthermore, claims 13-18 are of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to FARLEY J. ABAD whose telephone number is (571) 270-3425. The examiner can normally be reached on Monday-Friday 7:30am-5:00pm EST.
